

Bryan Jo

Frontend Developer

👤 Profile

An undergraduate student who currently focused on Front End. Other than that, I also interested in UX/UI Design, AI Development. I always love to learn new things and open to new opportunities.

📁 Project

Creating UI using Figma

May 2023 — May 2023

Created UI for toy website, where people can register, login, see the product, and order the product

🎓 Education

High School , SMAS Setia Budi, Sungailiat

June 2019 — March 2022

Bachelor of Computer Science, Binus University, Jakarta

August 2022 — Present

★ Organization Experience

HIMTI Binus, Jakarta

2023 — 2024

I was part of the HIMTI response team, where I handled tasks such as preparing summaries, documentations, hosting response sessions, and more.
